

FreeTools PDF workflow sample

Synthetic example. No real personal data. Keep the original file.

1. Editable form fields

Name

Company

☐ I checked the output and kept the original.

Purpose

2. Embedded raster image

This image can be extracted separately.
Text and vector shapes are not images.

Header/footer previews must not cover this content.

Paper size: A4 portrait. PDF form values remain editable.

Rotated Letter page

Visible orientation should be preserved when resizing or making N-up.

Page 3 - result checklist

Check the number and order of pages.

Check that text is not clipped.

Confirm form values after reopening.

Confirm extracted images and metadata.

Original files are not modified.
